Glossary

Engineer: noun; a person trained and skilled in the design, construction, and use of machines.

Extraordinary: adjective; beyond what is usual, ordinary, regular, or established.

Lattice: noun; a structure of crossed wooden or metal strips usually arranged to form a diagonal pattern of open spaces between the strips.

Recognized: verb; to acknowledge, show appreciation of, or treat as valid.

Renowned: adjective; celebrated; famous; having a widespread reputation.

Tangible: adjective; capable of being touched; real or actual; definite.
