Debt	Firsthand	Excruciating	Alleviate	Hypnotism
Ether	Frolic	Nitrous Oxide	Chemist	Anesthetic

Glossary

Debt: noun, the condition of owing something to somebody

Firsthand: adverb; obtained directly from an original source, and not via somebody else

Excruciating: adjective; extremely painful, physically or emotionally

Alleviate: verb; to make something such as pain or hardship more bearable or less severe

Hypnotism: noun; a condition that can be artificially induced in people, making them entire an almost unconscious state.

Ether: noun; chemistry a volatile colorless liquid with a pleasant smell. Use: solvent, formerly as an anesthetic. Formula: $C_2H_5OC_2H_5$

Frolic: verb; to frisk around, behave, or play in a carefree, uninhibited way

Nitrous Oxide: noun; a colorless nonflammable sweet-smelling sweet-tasting gas. Use: anesthetic. Formula: N_2O

Chemist: noun; a scientist who works in the field of chemistry

Anesthetic: noun; a substance that reduces sensitivity to pain and may cause unconsciousness, especially a drug used in medicine
